

JULIAN NAGEL

Production Designer

With his first three feature credits as Production Designer, a prestigious BBC Scotland production, two features as Art Director and over a dozen short films as Production Designer now under his belt, Julian's work is now beginning to get wider recognition. To these credits can be added commercials work for Partizan, RSA/Joy and Stink, music promos for HSI, Colonel Blimp, Love and Warp X, and theatre productions in Germany and in London's Royal Court. Added to that background, his expertise in technical draughting, modelmaking and visualising (both manually and computer aided), budgeting and set design, along with fluency in English and German equally (dual-nationality), makes Julian an ideal choice for producers Europe and world-wide. For more information, visit Julian's website: www.juliannagel.com
